A Successful September

During September we welcomed a new cohort of children to Kings Road Primary school. All parents have attended 'Getting to Know You' meetings with teachers while their children played 1:1 with EYFS staff and were reacquainted with our classrooms and outdoor space. Starting school transition sessions were part-time at first (just half a class at a time) to ensure children came into a quieter environment where staff were able to give them individual attention to support a confident start to school. Mid-September both halves of the class joined to form Amethyst and Amber Classes. Children settled very well and have become familiar with the routines and expectations of our school day. New friendships have been formed and the children are feeling established, confident, and ready to learn!

What a successful September!
