

Y1 - MOON ZOOM - KNOWLEDGE ORGANISER

EARLY SPACE TRAVEL

In June 1944, the V2 Rocket became the first object to enter space.

In October 1957, the Soviets launched Sputnik 1 (the first satellite) into space.

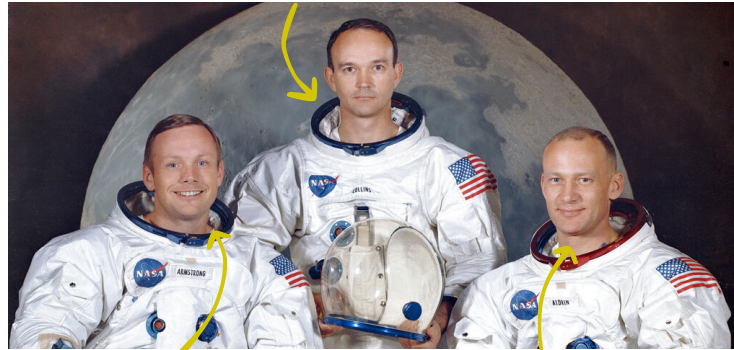

In February 1947, fruit flies became the first living creatures sent into space.

APOLLO 11

There were 3 American astronauts who went to the moon.

Michael Collins

Neil Armstrong

Buzz Aldrin

- It took 4 days to reach the moon.
- They gathered moon dirt and rocks to bring back to Earth and took photos of the moon too.
- Neil Armstrong famously said *"One small step for man, one giant leap for mankind."*

Katherine Johnson was a NASA mathematician who helped calculate the trajectory for getting Apollo 11 to the moon and back!
